Iraq · Open to Remote / Relocation

570+ Vulnerabilities Disclosed | 36 Industry Certifications | 14 OffSec Certs (All)

#1 Iraq — HTB Cyber Apocalypse 2025 | 341+ Red & Blue Team Reports

## CORE SKILLS

- Purple Team Operations
- Adversary Emulation
- Penetration Testing
- Vulnerability Research
- Threat Hunting (OSTH)
- Incident Response (OSIR)
- MITRE ATT&CK
- SIEM / ELK Stack
- Web / Mobile AppSec
- Active Directory Attacks
- Wireless Attacks
- Cloud Security (AWS/Azure)
- ISO 27001 Lead Auditor
- ISO 27701 Lead Auditor
- Security Team Leadership

## TOOLS

- Burp Suite
- Metasploit
- Nmap / Nessus
- Wireshark
- ELK / Splunk
- Cobalt Strike

## PROGRAMMING

- Python

## PROFESSIONAL SUMMARY

Purple Team specialist and co-founder with deep hands-on expertise spanning both offensive and defensive operations. I bridge Red Team adversary simulation with Blue Team detection engineering — validating security controls end-to-end using the **MITRE ATT&CK** framework, SIEM/ELK, and custom tooling.

Holder of **all 14 OffSec certifications** — a combination held by very few professionals globally — alongside 36 total industry certifications including **ISO/IEC 27001 & 27701 Lead Auditor**. Ranked **1st in Iraq and 19th globally** at HTB Cyber Apocalypse 2025 out of 18,000+ players. Discovered and responsibly disclosed **570+ vulnerabilities** across HackerOne, global bug bounty platforms, and local Iraqi companies.

Based in Iraq. Open to on-site or remote engagements in security operations, red/purple team leadership, and AppSec roles globally.

## EXPERIENCE

PRIVATE COMPANY — CONFIDENTIAL

2025 – Present · Full-time

### Security Operations Leader (Red Team) – Co-Founder

May 2026 – Present · 6 mos

Co-founded the venture and leads a **team of 4–5 security engineers** — directing red team strategy and full-scope adversary emulation across initial access, privilege escalation, lateral movement, and post-exploitation. Builds offensive tooling and attack infrastructure including C2 frameworks, redirectors, and custom payloads. Discovered and responsibly disclosed **50+ vulnerabilities** across local Iraqi companies including **Codion Solutions**, **Linkchi for Software Solutions**, and other private organizations.

Red Team | Co-Founder | Adversary Emulation | C2 / Attack Infra

- Bash / PowerShell
- C / C++
- C# / .NET

## CERTIFICATIONS

**OffSec — All 14**

OSCE³ · OSCP+ · OSEP · OSWE · OSED · OSWP · OSWA · OSDA · OSTH · OSIR · KLCP · OSCC-SJD · OSCC-SEC

**CyberWarfare Labs**

CRTA · MCRTA · MCBTA · DO-RTA

**Governance**

ISO 27001 · ISO 27701

**Network**

CCNA · CCNP · MTCNA

## EDUCATION

**B.Eng. Computer Engineering**
University of Mosul

Final project: IDS using ML — detected ARP spoofing, TCP/TFTP anomalies on live traffic.

Arabic — Native

English — Professional

Vulnerability Disclosure

### AppSec Specialist / Penetration Tester / Testing Team Lead

2025 – Present · Full-time

Leads application security testing engagements — assessing web and mobile applications, coordinating test coverage across the team, and reporting critical findings to stakeholders.

Application Security · Penetration Testing · Team Leadership · Web / Mobile AppSec

MINISTRY OF INTERIOR — IRAQ

### Cybersecurity Specialist – Purple Team · SOC Engineer

Dec 2024 – Present · Full-time

Secures a national-scale environment spanning **1,000+ local and public-facing systems**, **100+ servers**, thousands of endpoints, and **millions of end users**. Delivered **341+ red team and blue team assessment reports** to date. Operates as SOC engineer and cross-layer security advisor across network, endpoint, application, and infrastructure defense, validating detection coverage against MITRE ATT&CK using ELK SIEM.

Red Team · Blue Team · SOC Engineering · MITRE ATT&CK · SIEM / ELK · Threat Intel

MINISTRY OF INTERIOR & MINISTRY OF COMMUNICATIONS — IRAQ

### Cybersecurity Competition Judge / Supervisor

2024 – 2025 · Part-time

Supervised and judged 3 national-level cybersecurity competitions on behalf of Iraqi government ministries — two for the Ministry of Interior (2024–2025) and one for the Ministry of Communications (2025).

CTF Design · Competition Judging · Mentorship

MOI CYBERSECURITY DIRECTORATE — IRAQ

### CTF Supervisor, National Internship Program

2024 – 2025

Supervised a nationwide internship CTF for the Ministry of Interior Cybersecurity Directorate, with approximately **500 participating students** from across Iraq.

INDEPENDENT — HACKERONE & REGIONAL PLATFORMS

### Bug Bounty Security Researcher

2022 – Present

Discovered and responsibly disclosed 570+ vulnerabilities (Critical → Medium) across global and Iraqi organizations. Delivered detailed PoC reports and remediation guidance. Targeted web applications, APIs, and network infrastructure.

HackerOne · Web App · API Security · Bug Bounty

## VULNERABILITY RESEARCH

**570+**

VULNERABILITIES DISCLOSED

Reported across **HackerOne**, global bug bounty platforms, and direct engagements with regional companies. Includes **50+ vulnerabilities** found in Iraqi companies (**Codion Solutions**, **Linkchi for Software Solutions**, and other private organizations) — responsibly disclosed to strengthen local digital security. Severity range: Critical to Medium.
